

# Testimonial

“Kathy Drage has a wonderful gift and is able to articulate how your animal is feeling as well as communicate your sentiments to your pet. Her gift and skill has aided us in understanding both our Beagle boys more in depth which helps us adjust our actions resulting in improved behaviors for us all!”

## *Forever Friends*

*Booma Scout*

“Kathy’s gift has also comforted us by communicating with our dog Raven that crossed over. Our dogs love her and so do we – she is delightful, honest and displays a true love for animals and their human partners alike.”

Christine Marcoux & Butch Tripp.

**Intention is the key,  
hold it with reverence.**

Offering communication  
& healing to animals &  
their humans.

In the animal kingdom  
there is but one way, and that  
is with honesty.

As an animal communicator/energy worker, my goals are to help humans and animals understand each other, help restore any imbalances that may have occurred and to help empower animals and people by giving them tools they can use to live in harmony.

The animals in our lives are always giving us messages. They communicate through the sending and receiving of images, pictures, and emotions. We all have this capability; we just have to understand what we are looking for.

The energy work used for animals, humans, plants, land, etc. is Reiki, Integrated Energy Therapy, Shamanic healing, and Healing with the mind techniques. All of these methods are gentle, always for the highest good for the being worked on, and can be done with them present or at a distance. All the techniques work on physical, emotional, spiritual, and cellular levels.

Blockages can occur in energy fields that we all have, this can happen due to surgery, disease, suppressed feelings, stress, fears, self limiting thoughts, and karma, as well as many other things. The techniques used help restore and balance so that the energy can flow easily through the meridians and health is restored to the one worked on.

**Please email or call for info on energy work sessions on people, land, water, etc.**

## What to Expect

Consultations are priced on a sliding scale.

Email or check website for details.

Each consultation includes the following:

- ❖ I will ask you for a picture or description of the animal as well as a brief description of what you want to know regarding behavior, health, etc.
- ❖ I will also ask you for a brief description of any other family members – animal or human – that are in the house. Everyone plays a role in the animal's life.

You can either call me with this information, or email me.

- ❖ I will then set aside quiet time to give the animal my full attention.
- ❖ After the session with the animal, I will preferably email you, if possible, otherwise, I will set up a phone consultation time to give you the information I have received.

When communicating with the animal I also read their energy field, showing me where there is need for balance.

I gather information about what would bring the balance and offer suggestions on how to support them to achieve it.

These things might include Energy Work, Flower Essences (put together especially for them), or changes in family dynamics.

Since communication and energy work are a vibration, animals are very receptive (open) to distant work.

Doing distant work first gets the animal used to having energy work given to them. They feel the benefits right away, feeling very relaxed, and welcome more sessions.

It affects them on an emotional, physical, and spiritual level, working with their cellular memory.

Energy work is priced on a sliding scale.

Email or check website for details.

Flower Essence mixtures are \$10 per bottle

20% of all monies will be donated to the cause of an animal in need
